

LED-RED- Premium

LED BASED BEACON (RED)

FEATURES

- 10 year warranty
- Three times as many Top tier LEDs as required to meet light output
- Electronic components designed to compensate in case of diminished light output
- Reduced energy consumption by 90% versus incandescent
- Optical design to reduce ground disturbance
- Very stable light output under voltage variations
- Standard 13 ¼" bolt circle
- GPS ready
- SCADA ready
- Controller and power supply are located in a separate box, outside the light unit.

SPECIFICATIONS

Light output

Lamp type	LED
Light color	Red
Effective intensity	2 000 cd ±25%.
Horizontal coverage	360°
Vertical beam	3°
Expected min. lamp life	10 years +

Electrical value

Power consumption	20 Watts
Power requirements	120/240 Vac 50/60hz

Mechanical

Weight	18 Kg (40 lbs)
Dimensions (dia. x height)	48,1 cm x 35.5 cm (19" x 14")

Others

FAA type	L-864
Transport Canada type	CL-864
Operating temperature	-40°C to 55°C (-40°F to 131°F)
Warranty	10 years

COMPLIANT WITH:

- **FAA** AC 150/5345-43F
-  Transports Canada Transport Canada CAR 621.19
- Conformidad con las normas de Mexico
- ICAO – Medium Type B and C
